

Brilliant To Do
Business With

Soak up the sums

Virgin Voyages offers a compelling commission (a sweet 16%), an extraordinary experience, respect & integrity for you and your clients, and the inside intel to #RaiseYourSales.

Our commitment to delivering an 'Epic Sea Change For All' begins with you, and that means putting our money where our mouth is by raising commission for First Mates to a number set to boost your bottom line: a sweet 16%!

And this very, very sweet 16% commission is here to stay; this is no limited-time offer. It's something you can count on, in addition to earning on everything and no NCFs. That's right; no portion of the base voyage fare is set aside, designated, deducted, or excluded from figuring into your earnings.

We'll also keep you soaking up the sums as you continue to earn 10% commission on everything

sold before your Sailor sails, with the exception of taxes and fees. So, when you put in the work of helping your clients customize their epic experiences by adding extras like onboard credit, shore excursions, hotel stays, voyage protection, spa treatments, and premium WiFi, you'll be rewarded for that work. You even earn commission on selling a Bar Tab, which is our answer to a drinks package. You know we got you.

16%

commission on voyage fare

No NCFs

10% on all pre-voyage sales
